# First Call for Papers

The academic committee of the 1st International Congress DataFrontiers 2025, organized by the Department of Electronics and Informatics of Universidad Técnica Federico Santa María, Concepción campus, invites researchers to submit their work (abstracts) in the form of papers or talks.

DataFrontiers serves as a platform to reflect on the significance of Data Science across various domains of knowledge where academia and the tech industry converge, fostering networking, research opportunities, and business development.

The areas of interest cover all fields of Data Science, with a special focus on applications in:

- Education
- Medical technology
- Rehabilitation sciences
- Psychology
- Hyperautomation of processes in industry
- Cybersecurity
- New architectures/models and big data
- Democracy and public policies

# Abstract Submission

Those interested in submitting their work can choose between poster or oral presentation. The academic committee will determine the final format of accepted submissions.

Submissions must follow these guidelines:

- The abstract should be between 200 and 250 words.
- Biography of the corresponding author/presenter with following information:
  - Full Name
  - Title information (Prof. / Dr. / Mr./ Ms.) (Teacher / Student)
  - Affiliation information (Department, University/Institution) + Country
  - Research Interests
- Keywords: Between 3 and 5 keywords.
- Abstract should be submitted in .doc format, in Spanish or English, according to the template provided.

Notifications of acceptance or rejection will be sent via email.

# Link Postulación

The link for submitting abstracts is as follows:
